Dear Aircraft Owner:

The Federal Aviation Administration has established a requirement to re-register all aircraft issued registration before October 1, 2010, by amending 14 Code of Federal Regulations, Part 47, as published in the Federal Register on July 20, 2010, page 41968. This amendment also provides that aircraft registrations issued on and after October 1, 2010, will expire after three years. These changes will keep the U.S. Civil Aircraft Register up-to-date, to provide reliable support to users of the registration system.

The expiration date for the aircraft shown above is **March 31, 2011**. To ensure continuous registration and operation of this aircraft, the owner must file an Aircraft Re-Registration Application, AC Form 8050-1A, with the \$5.00 re-registration fee, **before January 31, 2011**. You are cautioned that failure to maintain valid aircraft registration will result in the airworthiness certificate becoming ineffective.
