

# Bernoulli's Principle

Name: \_\_\_\_\_

Date: \_\_\_\_\_

## Tent With a Straw

1. What is your prediction?
2. What actually happened?
3. Why do you think it happened that way?

## Hair Dryer and Pingpong Ball

1. What is your prediction?
2. What actually happened?
3. Can you explain why?

## Magic Moving Ball

1. What is your prediction?
2. Can you explain how this worked based on what you saw in the other two demonstrations?

## After your teacher shares Bernoulli's principle with you:

Explain the three demonstrations above in terms of Bernoulli's principle:
