

# EAA AeroEducate — Online Education Portal to Aviation for Youths

Learning about the world of aviation can start at any age. EAA AeroEducate, a bold new program that opens a wide spectrum of possibilities for young people interested in aviation, officially launched on July 26 at EAA AirVenture Oshkosh. Now, youths ages 5 to 18 years old have access to an interactive, educational, and engaging experience that includes everything from aviation-based activities to learning to fly an airplane for real.

AeroEducate's web-based resource provides clear, age-appropriate pathways to aviation and aerospace engagement, and even career paths. A multitude of turnkey, easy-to-use aviation-themed activities are available for teachers and EAA chapters.

## Five Career Paths

- > Pilot
- > Air Traffic Controller
- > Aviation Business
- > Engineer
- > Aviation Maintenance
